## Using SVM for Link Discovery

Betreuer: Axel Ngonga

Link Discovery

## Link Discovery Audio Scrobbler (OBTune) Lov Linked User Feedback (Stags 2con delicious Bricklink Raading St

- ✓ 31+ billion triples
  ✓ Multi-domain kno
- Multi-domain knowledge bases

Less than 3% of triples are links

Product

Most knowledge bases point to 1 other knowledge base

UniSTS

Size of knowledge bases

## **RAVEN**

Kombiniert active learning und gradient descent

## Aufgabe

- Implementierung von aktivem Lernen basierend auf SVM
  - 1. Einbindung von libsvm in LIMES kernel
  - 2. Berechnung von most informative positive and negative examples
  - 3. Evaluation auf 3 Datasets
- NB: Interfaces und Methoden zur Ausführung von Specs bereits gegeben
